

TRAFFIC UPDATE

Tunstall & Addiscombe Court Residents Association

February 2017

Croydon's Traffic Management Advisory Committee (TMAC)

Held on Wednesday 8th February 2017

The Councillors on the committee discussed our petition to reduce traffic volumes and considered a proposal to introduce 'No Entry' signs in Addiscombe Court and Canning Roads.

Over 20 residents from Addiscombe Court and Tunstall joined together on a bitterly cold evening to make their feelings about the traffic known. The Chair of our residents' association outlined the dreadful impact the traffic is having upon our streets, our lives and the significant increase in risk to public safety at Lebanon Road tram stop. She expressed the Association's requirement for action to be taken to resolve the problems created by the Council's previous decision on Lebanon Road.

After hearing from a resident, the Chair of HOME Residents' Association and TACRA, our three local ward Councillors all spoke giving their full support. The Traffic Management Advisory Committee, then decided to approve an informal consultation exercise with all streets from Cherry Orchard Road to Ashburton Road including the Park Hill area. The results of the Consultation will be referred back to a future Traffic Management Committee, at which point the Committee will decide whether to make Addiscombe Court and/or Canning Roads no entry (exit only) with Addiscombe Road.

In the next couple of months the Council will be delivering a questionnaire asking residents for their views on the proposal to make Addiscombe Court Road no entry (exit only) by the tram stop. *Follow up contact with the Council indicates that they expect to be able to deliver the consultation in the last week of March or first week of April 2017. As a result of Easter, they propose that the consultation lasts for five weeks with the results being reported back to the next available TMAC, probably in July 2017.*

The more of us that complete the questionnaire when it arrives the better the picture the Council will have of individuals' views. We urge everyone to complete the questionnaire when they receive it so that your views are heard by the Council. This is an important next step, please take part!

Finally, thank you to residents who were able to be there as it really made a difference on the night. *More information is available on the TARCA website....*
